Staten Island Inset

About this map:

Disclaimer: The City of New York has published this map to aid cyclists. Cyclists are urged to use facilities that are suitable for their individual cycling skills and to be aware that traffic volumes, during certain times of the day, may be unsuitable for their cycling abilities. The City of New York takes no responsibility for users' safety, and in no way warrants the safety or fitness of the suggested routes: Ride carefully!

BIKE LAWS & SIGNAGE

Obey Traffic Signs and Signals
As vehicles, bicycles must obey all **NYC Traffic Rules.** Cyclists have the same rights, privileges and duties as other vehicular traffic.

Never Ride Against Traffic
Motorists and pedestrians are not looking for bicyclists riding against traffic. It is illegal and dangerous. Ride with traffic to avoid accidents.

Stay Off Sidewalks
Bikes are not permitted on sidewalks unless bike wheels are less than **26** inches in diameter **and** the rider is **13** years or younger, or signs allow.

Be Visible
Ensure your visibility at night by wearing light-toned clothing with reflective tape material. Outfit your bike with lights as you would for riding on the roads.

For additional traffic laws regarding cycling see:

SAFETY TIPS

On-Street Biking - Share the Road

Make Eye Contact
Confirm that you are seen. Establish eye contact with motorists to insure that they know you are on the road. Look over your shoulder regularly or use a mirror to scan the road behind. Although bicycles have equal right to the road, be prepared to maneuver for safety.

Turning Left - 2 Options
1. AS A VEHICLE: Signal your intentions in advance. Move to the left turning lane, and complete the turn when it is safe.
2. AS A PEDESTRIAN: Ride to the far crosswalk & walk.

Be Careful at Intersections
Most accidents happen at intersections. Proceed with care. Avoid being in a turn-only lane if you want to go straight through an intersection. In narrow lanes or slow traffic, it may be safer to take the whole lane.

Beware of Car Doors
Be wary of parked cars. Motorists can unexpectedly open doors. Be particularly careful if a you see a motorist in the car. Ride in a straight line at least three feet away from parked cars.

Use Hand Signals
Signal all turns and stops ahead of time. Look over your shoulder for any traffic, then make your intended move only when it is safe to do so.

Lock Your Bike
Lock the frame and rear wheel of your bike to a fixed object. If you have a quick release, lock the front wheel also. Do not lock your bike to trees.

Keep both hands ready to brake
You may not stop in time if you brake one-handed. Allow extra distance for stopping in the rain, since brakes are less efficient when wet.

Avoid road hazards
Watch out for parallel-slat sewer grates, slippery manhole covers, oily pavement, potholes and construction plates. Cross railroad tracks carefully.

Keep your bike in good repair
Maintain your bike in good working condition. Check brakes regularly and keep tires properly inflated.

Additional Tips for Multi-Use Paths

Right-of-Way
Cyclists and In-line skaters must yield to pedestrians. Pedestrians always have the right-of way.

Signal to Others
Cyclists: sound your bell or call out a warning when approaching others, then pass safely on the left. Skaters: Follow travel rules as per bicyclists. Do not perform trick-skating maneuvers on heavily used paths.

Keep to the Right
All path users must keep to the right except when passing or turning left. Pedestrians: move to the right when someone is passing. Move off the path when stopping. Never block the path.

Stay on the Path
Ride only on designated paths to protect parks, natural areas and yourself. Riding off a designated pathway is dangerous and prohibited in NYC Parks.

Use Designated Path
Where designated, cyclists and skaters must ride on the specified path. Don't ride on a pedestrian path. Look both ways at crossings. Cyclists: yield to through traffic at intersections; pedestrians have the right of way. Pedestrians: exercise caution.

BIKES ON THE SUBWAY

7-10am / 4-7pm

Avoid Rush Hours
Bikes can be dangerous when they get in the way of a number of people.

Board at end of Train
Board at the least crowded part of the train, usually the front or back. Never put your bike where it could block an aisle or a door.

Stand by Your Bike
Move your bike to allow others to pass or sit down. If there is a train or station evacuation, you must leave your bike behind to ensure a swift & safe exit for all passengers.

Carry Your Bike on Stairs
Wait until the staircase is not crowded. Carry your bike. Don't bump it down the stairs; you could lose control.

Use Service Gate
Do not try to lift your bike over the turnstile. Signal the Token Clerk to release the service gate. Use a *MetroCard* & roll the turnstile. Pull the service gate to enter.

Courtesy + Common Sense = Bicycle Safety
Consideration of others along with reasonable judgment help produce a safer, more comfortable environment for bikes.
